ACKNOWLEDGEMENT

Alhamdulillah, thanks to Allah (S.W.T.), by His grace and mercy of His blessing, finally we can complete this case study successfully. Many obstacles and challenges we had faced towards the accomplishment of this case study. However, with lots of patience, teamwork as well as cooperation, we were able to overcome the barriers.

With this regard, we would like to express our appreciation to the panels involved in this Case Study of Integrated Coastal Zone Management (SKL 5202), namely; Prof. Dr. Mohd. Lokman Husain, Prof. Dato Dr. Saharuddin bin Dato' Abdul Hamid, Prof. Dr. Nik Mohd Fuad Nik Mohd Kamil, Assoc. Prof. Dr. Rosnan Yaacob, Assoc. Prof. Dr. Zainudin Bachok, Dr. Muhammad Abi Sofian Abdul Halim and Dr. Khatijah Omar for sharing knowledge, guidance and advice in contributing to the achievement of this case study. In addition, we also would like to thank all the lecturers involved in providing guidance and facilitation directly or indirectly during the execution of this case study.

Furthermore, we would also like to express our thanks to School of Business and Maritime Management as well as School of Graduate Studies for all facilities and provisions of expenses which have been granted. Besides, thousands of appreciations are also presented to all government agencies such as Department of Irrigation and Drainage, Department of Environmental, Public Works Department, Department of Tourism as well as tourists and residents of the study area.

Last but not least, we would like to convey our gratitude and thankful to our parents and family members who were always giving support from the start until the finishing point of the case study. Finally, to all our fellow friends who were always sharing the ideas and opinions for the case study purpose, may all good things always accompany them, and be blessed forever.

Thank You.

ABSTRACT

Abstract of study case presented to the Senate of University Malaysia Terengganu in fulfillment of the requirement for the Master of Management (Integrated Coastal Zone Management)

IMPACT OF TOURISM DEVELOPMENT ON SOCIO-ECONOMIC AND ENVIRONMENT: PULAU WARISAN, KUALA TERENGGANU (I-CITY)

This study was conducted to investigate the impact of tourism development in Pulau Warisan, Kuala Terengganu. This study applied socio-economic variable and environment variable. Hence, the act, legal and policy were also being discussed in this study. Primary and secondary data were both research methodology got by the researchers through

interviews, surveys and article readings. Data analysis techniques used by researchers were correlation, descriptive, reliability and normative study. This exploration of tourism development impact resulted that there is a significant relationship between economic aspect and the impact from tourism development in PulauWarisan. Nevertheless, there is a no significant relationship between environment aspect and the impact from the tourism development in PulauWarisan. Other than Environmental Management Plan and Preliminary Side Assessment, this project also was responsible to conduct Hydraulic Study.
