Alhamdulillah, praise upon Almighty and Merciful Allah S.W.T, for His will, this thesis was successfully completed. I would like to thank and appreciate all of those people who had helped me in completing this thesis and made this thesis an unforgettable experience for me.

First of all, I would like to express my sincere gratitude to my supervisor, Captain Noor Apandi B. Osnin on his guidance and inducement that he gave to me along the time given to complete my thesis. My appreciate also to the Head of Nautical Science and Maritime Transportation Department, Captain Mohd Naim B. Fadzil, all the lecturers of Nautical Science and Maritime Transportation and all the FMSM's staffs who involved directly or indirectly for their supervision.

I am grateful to all my friends, housemates and classmates for their encouragement and helps throughout my research project progress. They have been much of help to me in the form of advice and encouragement.

Finally, I would like to express my deepest gratitude for the constant support, emotional understanding and love that I received from my beloved family, especially from my father and mother, Abdul Rahman B. Yaacob and Sabidah Bt. Tahir. Thank you very much.

ABSTRACT

This research project is about the Halal food onboard ships and its availability amongst Malaysian ships. This study will be discussing and focusing on the knowledge of seafarers about Halal food onboard ships and the availability of Halal foods onboard Malaysian ships. The religions, nationality of seafarers and nationality of the companies are among those criteria used to evaluate and identify the two objectives of this research. For the purpose of this research, a few readings of journals, articles and statistics plus the survey questionnaire have been done to obtain the required data and information to relates between Malaysian seafarers with the knowledge of Halal and non-Halal foods and the availability of such foods amongst Malaysian ships. This research resulted in the findings that many of Malaysian seafarers do have high knowledge about Halal foods. Besides that, the findings lead to the fact that, none of Malaysian ship provides non-Halal foods as daily meals. The conclusion is that both objective were partly met even though the result is very close, because further research needs to be done in order to obtained more accurate results.

ABSTRAK

Projek kajian ini adalah mengenai makanan Halal di atas kapal dan ketersediaannya di atas kapal milik syarikat Malaysia. Kajian ini mengkhususkan dan membincangkan mengenai pengetahuan pelaut-pelaut Malaysia mengenai makanan Halal di atas kapal dan ketersediaannya di atas kapal milik syarikat Malaysia. Agama, warganegara pelaut dan warganegara syarikat adalah antara kriteria yang digunakan untuk menilai dan mengenalpasti kedua-dua objektif kajian. Demi tujuan kajian ini, beberapa bacaan dari jurnal, artikel dan statistik serta soalan kaji selidik telah dilakukan bagi memperoleh data dan informasi yang menghubungkan antara pelaut-pelaut Malaysia dengan pengetahuan makanan Halal dan mengenai ketersediaan makanan tersebut di atas kapal Malaysia. Hasilnya membawa kepada penemuan dimana pelaut Malaysia memang mempunyai pengetahuan tinggi mengenai makanan Halal. Selain itu, kajian ini membawa kepada fakta yang tiada satu kapal Malaysia menyediakan makanan yang tidak Halal sebagai makanan harian. Kesimpulannya, kedua-dua objektif kajian hampir tercapai walaupun bagaimanapun, kajian yang lebih mendalam perlu dilakukan demi mendapatkan keputusan yang lebih tepat.
